## Activities

- Tell your child to point to the objects in the book and sign the corresponding number.
- Make a counting book (including numbers from one to ten) and help your child cut out objects from magazines or newspapers that will correspond to the numbers. Paste the pictures onto pieces of paper and write the corresponding number next to each picture. Staple the pages together to make a book. Put a title on the book cover and read the book made with your child.
- Play a number game. Get ten small toys or objects (e.g., small blocks, toy cars). Sign a number from one to ten and have your child get the corresponding number of objects. Reverse roles.
